vietnam s year of the rat explores the lunar new year 1960 and the dynamic relationship between two competing groups vying for control in the republic of vietnam one group led by united states ambassador elbridge durbrow worked toward directing vietnam towards an american style democracy that focused on forcing reforms within the saigon government the other group headed by republic of vietnam president ngo $\square$ inh di $\square$ m attempted to navigate the demands of durbrow and the state department and to confront internal opposition and an emerging external threat while trying to further the goals of the republic the result was a series of failed opportunities by both sides to resolve the differences of the two complementary if conflicting strategies vietnam s year of the rat offers an alternative to the now standard historiography for this period of the study in the vietnam war by providing a vietnamese viewpoint into the story of that long and tragic war

elbridge durbrow served as the third united states ambassador to the republic of vietnam from 1957 to 1961 his relationships with

vietnamese president ngo ãinh diãnm and members of the military assistance advisory group in saigon helped to shape his tenure in office which ultimately concluded with his decision to end his support for the vietnamese leader as well as turn away from the american military representatives who had earned ngo ãinh diãnm s trust this triangular relationship was mired in clashes of ego and personality that often interfered with the american decision making process durbrow and his embassy staff rather than work with the vietnamese leadership chose to focus on the negative and reported to washington only those items that reinforced this perspective they created an atmosphere of distrust and anxiety that neither the americans nor vietnamese could overcome in the 1960s and helped to create the conditions for greater united states involvement in southeast asia

the american foundation myth in vietnam deals with how the results of the vietnam war challenged the long standing belief in america s role in the world as a unique nation favored by god that carries a global responsibility with it the author disputes the commonly held belief that america discarded this foundation myth developed out of john winthrop s idea of a city on a hill following vietnam he reexamines the myth in the context of american history to show that the country still firmly attaches itself to the rhetoric of the foundation myth the analysis divides americans into one group that believes america s mission cannot be fulfilled without active involvement on the global stage and one that maintains that its mythic goals are fulfilled most effectively by developing itself as the world s model for freedom and democracy the tension created between these perspectives creates a dynamic and durable quality that fuels the power of the foundation myth even after a seemingly destructive event such as the vietnam war
